### Water Safety Program – Study Guide

Required for initial licensing if you have a pool, hot tub, or other free-standing water.

Video: <http://centervideo.forest.usf.edu/gpi/poolsafety/start.html>

Latches on pool gates should always \_\_\_\_\_.

Pool safety measures include supervision and the following layers of protection:

Drownings can occur in as little as 2 inches of water for infant, as well as:

---

True or False: Supervising children is important but not the only way to keep children safe in the water.

Yes or No: Replacing locks or latches on screen door with locks or latches that are out of reach of small children is important to increasing safety. Making sure to check for holes or gaps in the fencing around the pool, and reduce number of access points to the outside by locking doors and windows.

Effective Pool barriers include:

Blocking a child's view from the pool includes them not seeing:
